PROFESSIONAL PROFILE

Looking for a talented junior web developer? Look no further! With experience in developing dynamic and responsive websites, I bring a creative and innovative approach to every project. My biggest achievements include creating engaging user interfaces, optimizing site performance, and implementing SEO best practices. With a strong eye for design, a passion for coding, and excellent communication skills, I'm the perfect addition to any web development team. Let's work together to create the next big thing on the web!

WORK EXPERIENCE

HR Manager

October 2021 - March 2022

As an HR manager, I bring a fresh perspective and a passion for building high-performing teams. In just 5 months, I've successfully interviewed and onboarded several talented individuals, ensuring a smooth and positive candidate experience. My personal knowledge of real work experience allows me to relate to candidates on a deeper level, and my best qualities include empathy, attention to detail, and excellent communication skills.

PROJECTS

Portfolio

That was my first project. A template was taken and fully redesigned and rebuilt. In the course of work, I got acquainted with and understood the structure of HTML and CSS and learned the basic principles of SEO.

Web-Shop

In the learning process, I started different small projects and decided to collect them into one big and valuable project. Working on web-shop I learn algorithms and patterns of programming, how to work with databases, and also create cart, sign-in/up pages, etc.

EDUCATION

Bachelor Degree
MIA / Faculty of Economics, Applied Informatics

Incomplete Master's degree
MIA / Faculty of Management, Human Resource Management

Courses
